Extract-Based Question

2. **Read the following extract and answer the questions that follow:**

> "God may have taken her hearing but he has given her back something extraordinary. What we hear, she feels — far more deeply than any of us. That is why she expresses music so beautifully."

- a) Who is the speaker referring to in this extract?
- b) What does the speaker mean by "she feels — far more deeply than any of us"?
- c) How does this ability contribute to her musical expression?

- **Answers:**

- a) The speaker is referring to Evelyn Glennie.
- b) The speaker means that Evelyn, despite being deaf, senses music through physical vibrations in her body more intensely than those who hear with their ears.
- c) This ability allows Evelyn to express music beautifully by connecting with it through her body, making her performances unique and profound.

Short-Answer Questions

3. **How did Ron Forbes help Evelyn Glennie pursue her musical career?**

- **Answer:** Ron Forbes, a percussionist, recognized Evelyn's potential and encouraged her to sense music through vibrations rather than hearing. He tuned two large drums to different notes, helping her feel the higher drum from the waist up and the lower drum from the waist down, enabling her to perceive music through her body. [(4. **Why was Evelyn nervous yet excited while waiting for the train to the Royal Academy of Music?**)]

- **Answer:** Evelyn was nervous because she was a young, 17-year-old from Scotland with a hearing disability, entering a prestigious institution like the Royal Academy of Music. She was excited because attending the academy was a dream come true, marking the start of her musical journey in London.

Long-Answer Question

5. ****Discuss how Evelyn Glennie's determination and hard work helped her overcome her hearing impairment to become a renowned musician. Provide examples from the lesson to support your answer.****

- ****Answer****: Evelyn Glennie's determination and hard work were pivotal in overcoming her profound deafness, diagnosed at age eleven due to gradual nerve damage, to become a world-renowned multi-percussionist. Despite being advised to use hearing aids and attend a school for the deaf, Evelyn was resolute in leading a normal life and pursuing her passion for music. Her teachers initially discouraged her from playing the xylophone, but her determination led her to percussionist Ron Forbes, who taught her to sense music through bodily vibrations. For instance, she learned to feel higher drum notes from the waist up and lower notes from the waist down, and she sensed xylophone sounds through her fingertips. This unique approach allowed her to master over a thousand instruments. At the Royal Academy of Music, her relentless practice resulted in her scoring the highest marks in the academy's history and winning top awards. Evelyn's workaholic nature drove her to perform at regular concerts, give free performances in hospitals and prisons, and conduct classes for young musicians. Her ability to feel music through her skin, cheekbones, and hair, as she described, showcased her extraordinary connection to music, making her an inspiration for overcoming challenges through passion and perseverance.
