

SNS COLLEGE OF PHARMACY AND HEALTH SCIENCES

SNS Kalvi Nagar, Sathy Road, Saravanampatti Post, Coimbatore -641035

B.Pharm I semester Pharmaceutical Analysis

2 Mark questions

Unit I :

Define Pharmacopoeia

Define Monograph

Define Error

Define Normality

Define Molarity

Define Molality

Define Primary standard with examples

Define secondary standard with examples

Define Accuracy

Define Precision

Define limit test

Define hygroscopic with example

Define deliquescent with example

How will you prepare 1 Normal sodium hydroxide

How will you prepare 1 Molar potassium permanganate in acidic medium

Write the different technique of analysis

Role of ammonia in limit test for citric acid

Role of potassium sulphate in limit test for sulphate

Write the chemical reaction involved in the limit test for Iron

How will you calculate the equivalent weight factor for the titration of 1N NaOH vs potassium hydrogen phthalate
