

SNS COLLEGE OF PHARMACY AND HEALTH SCIENCES

SNS Kalvi Nagar, Sathy Road, Saravanampatti Post, Coimbatore -641035

B.Pharm I semester Pharmaceutical Analysis

Unit III :

Write the limitation of Mohr's method

Compare and Contrast the Volhard's and Mohr's method

What is the advantage of modified volhard method

What is the role of nitrobenzene in modified volhard method

Indicators used in Fajans method

Define sequestering agent

Define masking agent and demasking agent

Write the various titrant in complexometric titration

Define ligand

What are chelating agents

Werner's co ordination number

Which type of Ion is analysed in indirect complexometric titration

Give an example for metal ion indicator

What is meant by back titration and blank titration

What is co precipitation and post precipitation

Define supersaturation

Write the formula used in gravimetric analysis

What is gravimetric analysis

Write the application on diazotization titration

Write the chemical reaction involved in the diazotization titration
