

Across

2. Blood cells that help in clotting
3. Molecule involved in energy transfer
4. Blood clot that travels through the bloodstream
5. Enzyme that converts fibrinogen to fibrin
7. Cell fragment crucial for blood clotting
8. Relating to blood vessels

Down

1. Process of blood clotting
2. Blood clot that forms within a blood vessel
4. Thin layer of cells lining blood vessels
6. Process that stops or slows blood flow
