

SNS COLLEGE OF PHARMACY AND HEALTHSCIENCES

PUZZLES - Unit III

PHARMACEUTICAL ORGANIC CHEMISTRY-I (BP202T,)

Across

- 2. OH functional group found in many organic compounds
- 4. Molecule with same formula as another but different arrangement of atoms
- 5. Process that separates liquids based on different boiling points
- 6. One carbon substituent attached to a larger molecule
- 8. Temperature at which a liquid changes to vapor
- 10. Biological conversion of sugars into gases and acids

Down

- 1. Chemical reaction involving loss of electrons
- 3. Alteration of a protein's structure that destroys its biological activity
- 7. Substance that dissolves another to form a solution
- 9. Two carbon chain attached to a parent structure
