

Riddle 1: The Silent Messenger

I carry no electricity,
Yet I decide whether a thought continues or dies.
Too much of me causes chaos, too little causes silence.

Answer: _____

Riddle 2: The One-Way Bridge

Signals pass over me,
But I never let them return the same way.
I am not a neuron, yet I decide communication.

Answer: _____

Riddle 3: Binary Brain Illusion

I do not think in 0s and 1s,
Yet your AI borrowed my idea.
I either fire or stay silent.

Answer: _____

Riddle 4: The Fast Highway

Signals travel faster on me
Not because I am thick,
But because I am wrapped.

Answer: _____

Riddle 5: The Learning Switch

I do not store memories,
But without me learning cannot happen.
I change with experience.

Answer: _____

Riddle 6: The Forgetting Curve

I weaken when unused,
I strengthen when repeated.
I explain why revision matters.

Answer: _____

Riddle 7: The Brain's Optimizer

I punish mistakes,
Reward success,
And guide future decisions.

Answer: _____

Riddle 8: The Hidden Layer

I make decisions without awareness,
Control balance and coordination,
And rarely get credit.

Answer: _____

Riddle 9: The Parallel Master

I process vision, sound, emotion, and memory at once.
No clock controls me.

Answer: _____

Riddle 10: The Ultimate Comparison

I learn continuously,
Forget naturally,
Consume little power,
And beat GPUs at efficiency.
